Email: 2101abhishekr@gmail.com

Mobile: +91-7061702158

SKILLS

Languages: C, C++, HTML, CSS, JavaScript, PHP, Python, Java
Frameworks: Node.js, React.js, Tailwind CSS
Tools/Databases: Git, GitHub, VS Code, MongoDB, Vercel, Render
Soft Skills: Adaptability, Team oriented, Courtesy & Professional Behavior.

PROJECTS

Rehabilitation Tracer: Digital Rehabilitation Progress Tracking System | [GitHub](#)

Sep' 25 – Dec' 25

- Delivered a role-segregated rehabilitation platform with different patient and doctor workspaces, supports personalized recovery plans, progress visibility, and direct clinical communication.
- Enabled symptom- and injury-driven specialist discovery, allowing patients to identify relevant doctors through condition-based searching and initiate consultations without manual intervention.
- Established continuous recovery assessment workflow, including pain scoring (1–10), clinician assigned daily exercise routines, and secure upload of medical documents for recovery tracking.

Tech Stack: React, Node, MongoDB

Mind Care: Self-Evaluation and Support System | [GitHub](#)

Mar' 25 – May 25

- Built a dynamic, multi-step mental health assessment system using JavaScript and PHP to provide users with personalized emotional insights based on behavioral indicators.
- Deployed a web-based mental health assessment system that collects user input through 6–7 question questionnaire which evaluates mental well-being using conditional logic and scoring algorithms.
- Implemented secure backend workflows using PHP with DBMS integration to store user responses and enable protected progress tracking.

Tech Stack: HTML, Tailwind CSS, JavaScript, PHP, DBMS

MemAlloc: Real-Time Memory Allocation and Tracking | [GitHub](#)

Mar' 25 – Apr' 25

- Created an interactive visualization tool demonstrating OS memory allocation strategies such as First-Fit, Best-Fit, and Worst-Fit in real time.
- Developed dynamic memory block rendering to help users observe fragmentation, allocation efficiency, and algorithm behavior step-by-step.
- Enhanced conceptual understanding for students with animated workflows, by enabling 40% faster grasp of allocation strategy differences.

Tech Stack: HTML, CSS, JavaScript

TRAINING

Data Structures & Algorithms using C++ | Lovely Professional University | [Certificate](#)

Jun' 25 – Jul' 25

- Completed hands-on training in core Data Structures and Algorithms, focusing on arrays, linked lists, stacks, queues, trees, graphs, sorting, and searching techniques.
- Strengthened problem-solving skills by implementing optimized algorithms in C++ and practicing complexity analysis for efficiency.
- Built a Job & Event Scheduler using C++ and core DSA concepts, implementing efficient event scheduler, planning a day, and time-management features. Designed for reliability, fast performance, and user-friendly layout.

CERTIFICATES

Cloud Computing | [NPTEL](#)

Apr' 25

ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#)

Aug' 25

Mastering in C: Basic to Beyond | [CSE Pathshala](#)

Mar' 24

Extra-curricular Activities

Participated in the SEBI Investor Awareness Test, showcasing understanding of financial markets, investor rights, and risk management concepts; *certified upon successful completion*. Nov' 25

Community Development Program (CDP): Academic outreach for underprivileged school and intermediate students provided guidance and AI awareness through a social welfare foundation; earned local media recognition and welfare [Certificate](#). Jul' 24

EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science and Engineering | CGPA: 6.49

Phagwara, Punjab
Sep' 22 – Present

Nardiganj College

Intermediate | Percentage: 71.2%

Nawada, Bihar
Apr' 20 – Mar' 21

Modern English School

Matriculation | Percentage: 75.0%

Nawada, Bihar
Apr' 18 – Mar' 19
